

Dear Linguatec,

During this period, I learned new ways to communicate my ideas without worries in terms of pronunciation, meaning or structure. I consider that I became more confident and it is helping me in my job, I can understand more about my daily work.

I like the methodology used in Linguatec, the experiences are very funny and it's great to listen different accents. Every teacher has their own teaching method and I think that is great to enrich the learning experience.

About the service, is great that the assessors and teacher Ale follows the process of every student, in my case for my job sometimes is hard to find classes that matches with my schedule, it would be cool if we have more schedules earlier and lately.
